MAINTENANCE REPORT · 2026

PROGRESS REPORT.

CLIENT	Magis Realty & Brokerage
PROJECT	Website & Management Portal
PERIOD	September 1 – November 9, 2026
SITE	magisrealtyph.com

HIGHLIGHT

YOUR DOMAIN IS PURCHASED

DOMAIN	magisrealtyph.com
PURCHASED	September 30, 2026
COST	₱2,223.34 (US$35.46 at ₱62.70 per US$)
DURATION	1 year
RENEWS	September 30, 2027

The domain cost is billed as a reimbursement on your final invoice (INV-2026-007). It is a third-party cost and not part of the project price or any maintenance plan.

STATUS

ALL GOOD

Your site is live on its own domain, up to date, and much more secure than at the start of September.

CHECK	RESULT
UPDATES	Next.js upgraded to 16.4.3 (fixes published security advisories); all pending database updates applied
SECURITY	Full security review done, and the issues found were fixed

SEPTEMBER

LAUNCH

GOING LIVE

- Deployed the site to production and fixed the errors found along the way (Sep 29–30)
- Fixed database connection errors that could slow down or break pages (Sep 29)
- Brought three pages back online and added the site favicon (Sep 29)
- **Sep 30: domain purchased**

SECURITY AND FEATURES

- Closed a login shortcut that was meant for demos only (Sep 2)
- Added rate limiting to forms to block spam and repeated attempts (Sep 1)
- Locked down a database table that was left open (Sep 29)
- Added show-password on login and profile photo upload (Sep 1–2)

OCTOBER

POLISH AND ADMIN TOOLS

WEBSITE

- Homepage animations, a testimonial carousel and faster image loading (Oct 1)
- Redesigned the founder section and updated the floating chip text (Oct 5)
- Replaced stock people photos with Cebu photos (Oct 25)
- Reduced database load on the two busiest public pages (Oct 1)

PORTAL AND ADMIN

- Removed sample data: the leaderboard, activity log and homepage insights now show real data (Oct 21)
- Only management can add listings; agents now have contact codes (Oct 21)
- System Admin controls, maintenance mode and bot protection (Oct 21–22)
- Bulk actions for Leads, Users and Documents, plus an Archived accounts popup (Oct 21)
- Admins can add users and delete job applications (Oct 21–27)
- Super admin role, confirmation pop-ups, and a profile dropdown fix (Oct 27)
- Fixed a "max clients reached" database error (Oct 21)

OCTOBER 25

SECURITY REVIEW

- Upgraded Next.js to 16.4.3 to fix published remote-code-execution, request-forgery and denial-of-service advisories
- Permissions are now enforced on the server for every user action, and actions anyone could call without logging in were closed
- Leads and commission data are limited by role
- Deactivated accounts lose access straight away; changing a password signs out other sessions
- Added security headers and a Content Security Policy
- Uploaded files are checked by content, and only the right people can attach documents to properties
- Login and reset pages no longer reveal which accounts exist; emailed links no longer trust the request's Host header
- Rate limiting stays on even if the Redis service is down
- QR check-in now requires the QR code
- Preview deployments can no longer change the live database
- Added automated tests for these fixes and updated the README with setup and security notes

NOVEMBER · TO NOV 9

LATEST UPDATES

NOVEMBER

- Mobile and tablet layout pass across the site, plus an "Upcoming meetings" card on the portal (Nov 3)
- Public site wording aligned with your company profile deck (Nov 3)
- Company email changed to magisrealtybr@gmail.com and Instagram to @magisrealtybr across the site, including Privacy Policy and FAQs (Nov 3)

REQUESTS HANDLED

SEP 30	Domain purchase
OCT 21	Admin tools: bulk actions, maintenance mode, super admin
OCT 25	Security review and fixes
NOV 3	Mobile/tablet pass, copy and contact updates

NEXT

RECOMMENDATIONS

01 Domain renews on **September 30, 2027**. We will remind you before then so it does not lapse.

02 Set up a branded email on your domain (for example, info@magisrealtyph.com) in place of the Gmail address shown on the site.

03 Review the user accounts on the portal and deactivate anyone who no longer needs access.

04 Assign one point person on your team to coordinate with us, so questions and approvals get a quick reply and updates go live sooner.

Thanks for the past months! Message me anytime.
